Alex Jones, 9-11, Eugenics, And General Conspiracy Documentaries And Interviews Downloads

The following documentaries are presented in high quality mp4 format ripped at 2500 kpbs video and 160 kbps audio, averaging 1 GB per hour of content. I've provided links to YouTube, Google Video and other platforms for alternative streaming options, as well as links to Amazon, Infowars Store, et cetera for purchasing of the DVDs. I recommend DVDs for large screen and local access television presentations.

These outstanding documentaries and interviews expose -- in excruciating detail -- the elites' nefarious plot to control, rob, and ultimately exterminate 95% of humanity in order to bring about their "new world order." They've got drones for killing and robots for manufacturing. They don't need "us" anymore. We are the "little people:" and as such, we are valued little more than ants. As King Edward I of England says in the movie, "[Braveheart](#)" ([pdf](#)), "The problem with Scotland is that there are too many Scots." A great culling has begun. Right now it is a "slow kill" for Westerners, using GMO, tainted vaccines, water fluoridation, psychotropic medications, chemtrailing, fractional reserve banking, State-controlled media, and a Skinnerian, creativity-stunting public education system to do its work. But as the next decade or two unfolds, I expect us to enter the hot phase of this technocratic eugenicist takeover. We must do all that we can to stand up against this system now, [throwing our bodies against the machinery of death until it grinds to a halt](#) ([pdf](#)) ([YouTube](#)). As time permits I will post summaries and commentaries of these important videos.

Mel Gibson as 13th century Scottish independence leader [William Wallace](#) in the movie, "Braveheart."

Please support the work of Alex Jones and the other activists, directors,

and producers highlighted below. Become a member of [PrisonPlanet.tv](#). Buy all the original

DVDs of their work for your own permanent library. All of Alex Jones' films, high quality 64 kbps radio show streams, special video alerts, special video interviews, and a wealth of additional content for people engaged in the "infowar" are available to [PrisonPlanet.tv](#) members. It costs about \$70 per year and pays for the enormous bandwidth bill incurred by Alex giving away his radio show and so much else for free. Alex's radio rants and interviews are often even more informative and engaging than his documentaries, which are themselves extraordinary. In the past year Alex has introduced a more highly produced television-style daily news hour which I recommend as well.

I don't know how dark the times are that we are entering; but with 2 million (and counting) dead innocent Iraqis and Afghanis -- 100's of times more killed by the malnutrition and starvation caused by the central banks and international trade policies -- the law of karma (i.e., you reap what you sow) suggests that the prospects for the country in whose name this ongoing holocaust is waged are not good. The Pentagon's focus domestically is psychological. We are engaged in an information war to win the hearts and minds of our fellow Americans. Unlock a mind today. Offer someone the [redpill](#). Help Alex and other likeminded patriots spread the message.

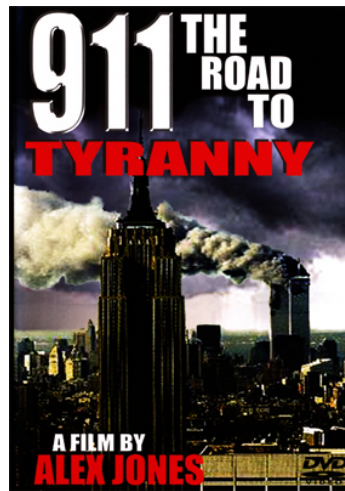

[Add comments regarding Jones' gatekeeping function with respect to Israe/IZionism.]

Free streaming of the daily news show can be accessed at [Infowars.com](#).

Synopsis from
[Infowars ad #1](#): The Road To Tyranny exposes:: * How dozens of FBI and defense intelligence agents were

What really Happened Sept 11th? ...And Who Stands To Gain?

The government needed a crisis to convince the people to willingly give up their liberty in exchange for safety. Now the painful facts are in. The dark forces of Global Government are funding, training, and protecting terrorist networks worldwide. 911: The Road To Tyranny documents the ruthless history of governments orchestrating terrorist attacks against their own people to scare them into total submission. In this brutal expose you will witness the birth of a global Police State that surpasses Orwell's nightmarish vision. It's all here: the history of government-sponsored terrorism, the modern implementation of fear-based control and most frightening of all, the New World Order's future plans. This is one film you cannot afford to ignore. The future of free people everywhere is at stake.

threatened with arrest by the federal government if they got in the way of Al-Qaeda operations * How the CIA trained, funded, and protected Bin Laden * That impeachment lawyer David Schippers warned Congress and the Justice Department of the impending terrorist attacks . (The film includes an exclusive interview with Schippers on the Alex Jones Show just 2 weeks after the attacks. Schippers has been threatened with arrest if he continues to speak out, and is begging the media and the American people to get this story out.) * How the bloodthirsty globalists are using the terrorist attacks to scare the population into accepting high-tech slavery and a new world order police state *

*How the recently declassified top-secret Northwoods document written by the Joint Chiefs of Staff laid out plans to bomb Washington and to hijack airplanes as a pretext for war * Bill Clinton's involvement in the Oklahoma City Bombing

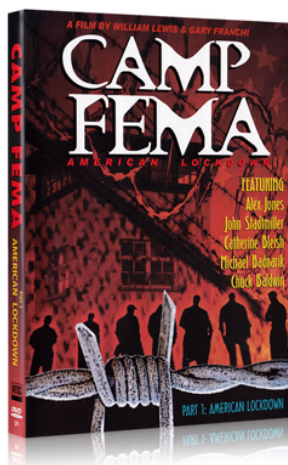

and how it was carried out by intelligence agencies to be blamed on the right-wing * How the FBI ordered their informants to cook the bomb and train the drivers in the first World Trade Center Attack in 1993 * Why the Patriot Act is unconstitutional and un-American * Why the government leaves our borders wide-open but tells us to give up our liberties for security and that more terrorist attacks are imminent * FBI training manuals that are being given to police departments that state that Christians, gun owners, and "those who make frequent references to the US Constitution" are terrorists * The unfolding cashless society biometric control grid * And much, much more...The government needed a crisis to convince the people to willingly give up their liberty in exchange for safety...Now the painful facts are in. The dark forces of global government are funding, training, and protecting terrorist networks worldwide..."911 The Road To Tyranny" documents the ruthless history of governments orchestrating terrorist attacks against their own people to scare them into total submission...In this brutal expose you will witness the birth of a global police state that surpasses Orwell's nightmare vision...It's all here: The history of government-sponsored terrorism, the modern implementation of fear-based control and, most frightening of all, the New World Order's future plans...This is one film that you cannot afford to ignore. The future of free people everywhere is at stake. Big Brother is afraid of this documentary!!! Order today and spread the word! *

THE HISTORY OF GOVERNMENT-SPONSORED TERRORISM, THE MODERN IMPLEMENTATION OF FEAR-BASED CONTROL AND, MOST FRIGHTENING OF ALL, THE NEW WORLD ORDER'S FUTURE PLANS.THIS IS ONE FILM YOU CANNOT AFFORD TO IGNORE. THE FUTURE OF FREE PEOPLE EVERYWHERE IS AT STAKE. BIG BROTHER IS AFRAID OF THIS DOCUMENTARY!!! ORDER TODAY AND SPREAD THE WORD!

[Church Of Euthanasia "I Like To Watch" \(4:00, 24 MB mp4\)](#) * [Church Of Euthanasia](#) *(pdf) * "I Like to Watch is a four-minute music video which explores the connections between the September 11 attacks, professional sports, and pornography. It's often understood as a critique of the voyeurism inherent in mass media, but this wasn't the original intent. The video simply attempts to capture the author's personal experience of watching the attacks on

TV, including childish glee, vindictiveness, perverse fascination, and sexual arousal." * "The video precisely expresses what I felt while watching the media coverage of the 9-11 attacks. I doubt that I'm the only person in the world who derived sexual gratification from watching two of America's tallest buildings being destroyed, but apparently I'm one of the very few who will publicly admit it. Karlheinz Stockhausen--considered by many to be the father of modern electronic music--called the attacks "the greatest work of art ever," and while I agree with him, he regrettably omits the sexual dimension. The endless replays of the plane penetrating the tower were unmistakably pornographic, complete with flames and debris spurting out in slow motion; even the Washington Post referred to the footage as a "money shot" and called it "our new porn" [12/31/2001, Page C1]. The towers were blatantly phallic, and their collapses resembled post-ejaculatory loss of erection."

Notes

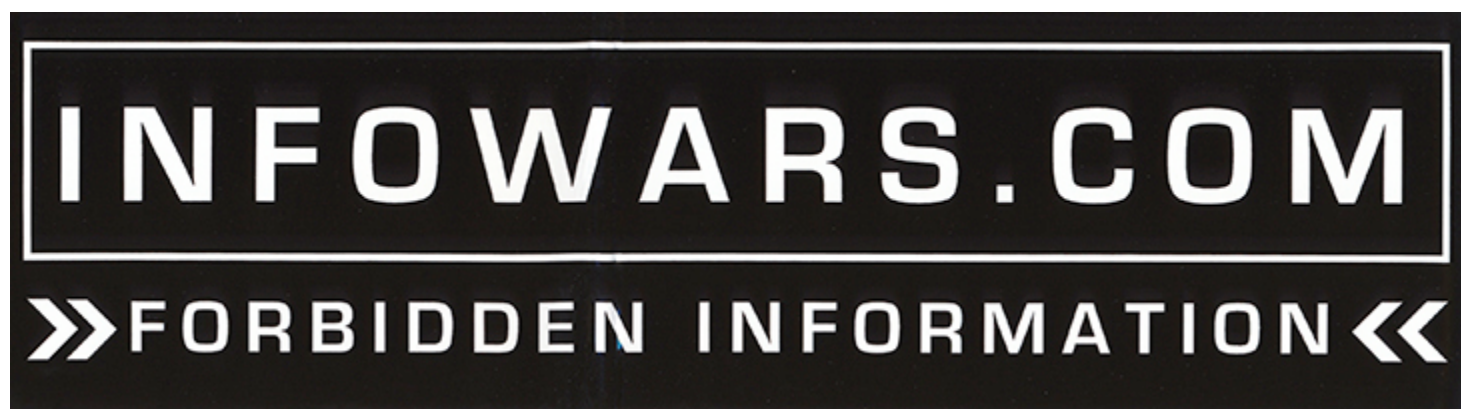

I've begun reloading these videos in both high-quality (HQ) and low-quality (LQ) formats. There are a few reasons for my including the LQ version. LQ is adequate in terms of a basic presentation of the information. For people with slower internet connections, at one-quarter the size of the HQ versions, these files will download more quickly. But most important, in the likely event of government censorship (that includes the

blocking of pages like this or sites like [Infowars.com](http://infowars.com)), the principal means of distribution of TRUTH will be in the form of person-to-person sharing of documents and videos. You will be able to burn 5-6 three-hour LQ documentaries here on a single DVD-R (that holds 4.35 GB's of data) that is compatible with most DVD players. Of course, a LQ version won't fill a big screen TV, but it should suffice for a computer viewing.

I am in the process of piecing together several DVDs of LQ files in the categories of "health," "police state," and "financial." Once I have all the DVDs ripped properly, I will post the various playlists on this page that max out the DVD-R format, drawing from what are in my view the most hard-hitting and persuasive videos on the net.

Again, please buy the original DVDs from Amazon or elsewhere if you wish to view on a large screen, share on local access television, or rip in different video formats for your own uses.

Note from 2012.4.22: I totally revamped this page, deleting all the mp4 files in order to reduce site bandwidth and avoid copyright concerns. I also chose this time to migrate the site to a new webhosting service that is more supportive of net neutrality and intellectual freedom.
